

Application Form

Lake Facilities Planning and Development Forum

Allocation of Lake Taupo Capital Budget

The information provided below will be assessed by the Forum against set criteria to determine the appropriateness and feasibility of implementing the proposal. It is important that applicants provide clear evidence that the proposal has been well researched and that all interested parties have been consulted. The criteria on which the Forum will evaluate proposals include:

- Any potential risks to user safety caused by current arrangements;
- The urgency of implementation;
- The extent to which the proposal contributes to the Department of Internal Affairs' management responsibilities for existing assets; and
- Whether the proposal provides benefit to a significant number of users.

Proposal:

(Please provide a clear description of the proposal and the rationale for its implementation)

Assessment of proven Need and Demand by Users:

(Please provide proof of the need for the proposal based on public need, usage and appropriateness)

Consultation:

(Please ensure consultation has been undertaken with appropriate organisations as determined by the 2020 Taupo-nui-a-Tia organisational diagram available from the Taupo District Council)

Technical Expertise Required:

(Please indicate the expected expertise required to complete the proposal ie. engineers, contractors)

Implementation options:

(Please provide your assessment of the options for implementing the proposal)

Estimated Cost:

(Based on appropriate advice)

Funding Options:

(Please advise why it is appropriate for the proposal to be publicly funded and what other options have been considered)

Implication of future proposals:

(Please advise whether there are other proposals which may be effected by the implementation of this proposal)

Social and Environmental Effects:

(please indicate if there are any social or environmental advantages or disadvantages associated with the proposal)
