Cynthia of Wellington, never thought she would have a job working at home until one day she filled out a simple form online. Before she knew it, she discovered her secret to beating the recession, and being able to provide for her family by working from home.

I read Cynthia’s blog last month and decided to feature her story in our Career News segment. In our phone interview she told me her amazing story. “Since getting my Internet Income Source Kit I actually make about $6,000-$8,000 a month using the internet. It is enough to comfortably replace my old job’s income. And the best thing is that I only work 10-12 hours a week so now I have a lot more time for family and friends.”

Working online has been a financial windfall for Cynthia, who struggled for months to find a job in a struggling economy through many online job agencies such as Monster.com, CareerBuilder.com and Snagajob.com. Her big break came one day when she found the Internet Income Source Kit in an online classified ad. “I lost my job shortly after the recession hit, I needed reliable income, I was not interested in those “get rich quick” scams you see all over the internet. Those are all pyramid scams or stuff where you have to sell to your friends and family. I just needed a legitimate way to earn a living for me and my family. The Internet Income Source Kit provided that for me.

I asked her about how she started her remarkable journey. “It was pretty easy. I filled out a short form and applied for a Internet Income Source Kit. Within minutes I got my kit and soon I was making around $6,000 a month. It’s really simple. I am not a computer whiz, but I can use the internet. They are still recruiting people, you should try it.”

You don’t have to be a job seeker to benefit from the Internet Income Source Kit but it is certainly an ideal alternative to working full-time. “I still search for full-time jobs but to be honest I’m earning more money than any of the jobs I have applied for anyway. I have a few friends that are doing exactly the same thing as me. Some of them are making over $3000 a week. Really the sky is the limit, if you put in the effort.” With jobs hard to find, working from home is certainly the way of the future.
